

Declaration of Relevant Financial Relationships

by Invited Speakers in Educational Programs, Organizing Committee Members, and Other Course Organizers

A separate declaration list for authors of proffered papers can be found in the Proceedings, and also at: <http://www.ismrm.org/06/>

The International Society for Magnetic Resonance in Medicine is committed to presenting CME activities that promote improvements or quality in healthcare and are independent of the influence of commercial interests. To insure balance, independence, objectivity and scientific rigor in all CME programs it is the policy of the Society that any person who has influence over the content of a program designated for **AMA PRA Category 1 Credits™** must disclose any real or apparent financial interest or other relationship (i.e., grants, research support, consultant, honoraria) that the individual may have with the manufacturers, distributors or providers of any commercial products or services that may be discussed in the presentation.

ISMRRM does not imply that such financial interests or relationships are inherently improper or that such interests or relationships would prevent the speaker or organizer from making an objective contribution. However, it is imperative that such financial interests or relationships be identified so that participants at the CME activity may have these facts fully disclosed in advance, and may form their own judgments about the presentations. It remains for the audience to determine whether an individual's outside interests may reflect a possible bias in either the exposition or the conclusions presented

Following are the names of all invited speakers, committee members and other organizers who had influence over the program content. When individuals have disclosed real or apparent financial interests or relationships with regard to the subject matter of this meeting, the interests or relationships are described. If the individual indicated that there were no conflicts, that is shown, as well.

Silvio Aime Bracco: Consulting fee	Jörg Barkhausen Schering: Consulting	Guerbet: Research grant/independent contractor (including contracted research)	Michael Chopp No Conflict
Andrew Alexander No Conflict	Peter Basser No Conflict	Peter Börnert Philips: Employment	Olga Ciccarelli No Conflict
Jeffrey Alger No Conflict	Douglas Beall No Conflict	Eddy Boskamp General Electric: Employment	Mark Collins No Conflict
Peter Allen No Conflict	Norman Beauchamp Philips: Established a research collaboration where we contract to optimize systems and assessment of outcomes; on-site physicists and project funding	René Botnar No Conflict	Steven Conolly No Conflict
Marcus Alley No Conflict		Robert Boutin No Conflict	Robert Cox No Conflict
David Alsop General Electric: Grant/research support	Christian Beaulieu No Conflict	Jean Brittain General Electric: Employment	Patrick Cozzone No Conflict
Kimberly Amrami Advanced MRI: Employment	Hugues Benoit-Cattin No Conflict	David Buckley No Conflict	William Crum No Conflict
